CONTENTS

Volume 19

Number 1, February 1973

T. MIZUNAGA, H. KURAISHI, and K. AIDA: Levels of biotin enzymes during unbalanced growth and death of biotin-deficient yeast cells. 1
K. KOUNO, T. OKI, H. NOMURA, and A. OZAKI: Isolation of new methanol-utilizing bacteria and its thiamine-requirement for growth. 11
M. HAYASHIBE and S. KATOHDA: Initiation of budding and chitin-ring. 23
R.B. JACKSON: The metabolism of allyl alcohol in *Trichoderma viride*. 41
V. RANGA RAO, N.S. SUBBA RAO, and K.G. MUKERJI: *In vitro* effects of some growth regulators on *Rhizobium*. 55
Y. YAMADA and K. KONDO: Coenzyme Q system in the classification of the yeast genera *Rhodotorula* and *Cryptococcus*, and the yeast-like genera *Sporobolomyces* and *Rhodosporidium*. 59

Short Communication

T. OKI, A. KITAI, K. KOUNO, and A. OZAKI: Production of L-glutamic acid by methanol-utilizing bacteria. 79

Number 2, April 1973

E.T. NIKITINA and L.V. KALAKOUTSKII: Cultivation conditions and expression of "fructose effect" in *Actinomyces roseoflavus* var. *roseofungini*. 85
T. YANO and S. KOGA: Dynamic behavior of the chemostat subject to product inhibition. 97
K. IKEDA and F. EGAMI: Lipopolysaccharide of *Pseudomonas aeruginosa* with special reference to pyocin R receptor activity. 115
K. UCHIDA and K. MOGI: Cellular fatty acid spectra of *Sporolactobacillus* and some other *Bacillus-Lactobacillus* intermediates as a guide to their taxonomy. 129
R.K. SAXENA and U. SINHA: Conidiation of *Aspergillus nidulans* in submerged liquid culture. 141

Short Communications

K. SANO, H. MOMOSE, and I. SHIIO: Some properties of *Bacillus subtilis* Phage A-1. 147
J.J. PERRY and C.E. CERNIGLIA: Crude oil degradation by filamentous fungi. 151

Number 3, June 1973

L.A.R. SALLAM, A.-M.H. EL-REFAI, S. NADA, and A.F. ABDEL-FATTAH: Enzymic hydroxylation and side-chain degradation of progesterone by *Aspergillus fischeri*. 155

I. KŌMURA, K. KOMAGATA, and K. MITSUGI: A comparison of *Corynebacterium hydrocarboclastus* Iizuka and Komagata 1964 and *Nocardia erythropolis* (Gray and Thornton) Waksman and Henrici 1948. 161
K. HASHIMOTO: Oxidation of phenols by yeast. II. Oxidation of cresols by *Candida tropicalis*. 171
Y. YAMADA, T. OKADA, O. UESHIMA, and K. KONDŌ: Coenzyme Q system in the classification of the ascosporogenous yeast genera *Hansenula* and *Pichia*. 189
K. IKEDA and Y. NISHI: Interaction between pyocin R and pyocin R receptor. ... 209
S. NAGAI, Y. NISHIZAWA, and S. AIBA: Bioenergetic approach to ethanol-limited culture of *Saccharomyces cerevisiae*. 221
K. UCHIDA and K. MOGI: Cellular fatty acid spectra of hiochi bacteria, alcohol-tolerant lactobacilli, and their group separation. 233

Number 4, August 1973

S. OGATA and M. HONGO: Bacterial lysis of *Clostridium* species. I. Lysis of *Clostridium* species by univalent cation. 251
K. KOMATSU and R. KODAIRA: Accumulation of nucleic acid-related substances by microorganisms. V. Role of purine nucleoside phosphorylase on the accumulation of guanosine by mutants of a *Bacillus* strain. 263
K. SANO and I. SHIIO: Instability of mutants of *Bacillus subtilis* resistant to phage A-1. 273
M. HAYASHIBE, N. SANDO, and N. ABE: Increase in cell size as a measure of growth of *Saccharomyces cerevisiae*. 287
T. HINO, M. KAMETAKA, and M. KANDATSU: The cultivation of rumen oligotrich protozoa. I. Factors influencing the life of entodinia. 305

Short Communications

W. LIN, K. OISHI, and K. AIDA: A factor inhibitory to the dissociation of influenza or newcastle disease virus-human red blood cell complex. 317
L. IYENGAR and A.V.S. PRABHAKARA RAO: Metabolism of chlordane and heptachlor by *Aspergillus niger*. 321

Number 5, October 1973

T. HINO, M. KAMETAKA, and M. KANDATSU: The cultivation of rumen oligotrich protozoa. II. Growth of entodinia *in vitro*. 325
K. KUBOTA, T. ONODA, H. KAMIJO, F. YOSHINAGA, and S. OKUMURA: Microbial production of L-arginine. I. Production of L-arginine by mutants of glutamic acid-producing bacteria. 339
Y. YAMADA, M. ARIMOTO, and K. KONDŌ: Coenzyme Q system in the classification of the ascosporogenous yeast genus *Schizosaccharomyces* and yeast-like genus *Endomyces*. 353
N. SANDO, M. MAEDA, T. ENDO, R. OKA, and M. HAYASHIBE: Induction of meiosis and sporulation in differently aged cells of *Saccharomyces cerevisiae*. 359
Y. KUROSAWA, K. IKEDA, and F. EGAMI: Destruction of the receptor substance for pyocin R by a liver extract of *Turbo cornutus*. 375

H. ELMAYERGI and J.M. SCHARER: Physiological studies on *Aspergillus niger* fermentation with polymer additive. 385

Short Communication

K. GONDA and S. KOGA: Low-temperature thermograms of *Saccharomyces cerevisiae*. 393

Number 6, December 1973

T. HINO, M. KAMETAKA, and M. KANDATSU: The cultivation of rumen oligotrich protozoa. III. White clover factors which stimulate the growth of entodinia.... 397

J. REISS: Influence of the mgcotoxins patulin and diacetoxyscirpenol on fungi. ... 415

R. IRIE and T. MORICHI: Role of water in ultraviolet-resistance of germinating bacterial spores. 421

K. OUCHI, K. TAKAHASHI, S. SUZUKI, and Y. NUNOKAWA: Non-foaming mutants of *Saké* yeast. Comparison of the cell wall composition between the parent and mutants. 429

T. TOKUYAMA, H. KURAISHI, K. AIDA, and T. UEMURA: Hydrogen sulfide evolution due to pantothenic acid deficiency in the yeast requiring this vitamin, with special reference to the effect of adenosine triphosphate on yeast cysteine desulfhydrase. 439

A. MURATA and T. KANEGAWA: Effect of β-propiolactone on *Lactobacillus casei*-phage J1 system. 467

J.N. RAI and H.J. CHOWDHERY: Cytology of the ascus and ascocarp development in *Achaetomium uniapiculatum*. 481
